

November 20,, 2020

Good Afternoon RMCA Families,

This has been a long couple of weeks for school leadership. We have been doing everything in our power to continue with in-person learning for as many of our students as possible. With the rise in local cases, extensive footprint of our community, and the impact that county health exclusion and quarantine guidelines have placed on schools, this task is getting extremely difficult.

This afternoon I have decided to implement a short-term remote learning week after Thanksgiving Break. We will move to remote learning for all students for the week of November 30 thru December 4th, while students enrolled in our full-time remote learning program will continue as normal. Students will return to school on December 7th. This decision was made for several reasons:

- We expect to have a spike in cases immediately following the Thanksgiving holiday. Giving our community the ability to monitor illness and seek medical advice during a time in which students are excluded from the learning environment will allow RMCA to closely monitor and exclude any students or staff that may impact the learning environment before we return to in-person learning.

- Today we needed to exclude the 4th grade team due to a student exposure. This student has been asymptomatic, but in direct contact with a positive case. Administration was unaware, and the student attended several days of school. Once we were able to address the issue, the risk of widespread exposure had already occurred. This impacted students, teachers, service providers, and substitutes we have hired in order to stave off our personnel issues. Due to this exclusion, other staffing-related exclusion would have had to take place when we returned to school after Break. The staffing issue is becoming our greatest logistical issue; having this extra week will allow us to reset the clock on our quarantines and hopefully be fully staffed on the 7th.

- Using this extra week of remote learning will also allow our facilities team to conduct extensive building-level cleaning and quality testing. Over the break, our team will be conducting indoor air quality testing, providing preventative maintenance on our HVAC system, analyzing our bacterial surface testing

- conducted last week, and providing extensive surface cleaning of all touchable surfaces on campus.

- A couple of logistics for the remote learning week of November 30th-December 4th:
- Preschool and Homeschool will remain open with normal operations and a heightened sense of caution.
- - All currently enrolled remote learners will continue with their normal classes and expectations as assigned by their teachers.
- - Elementary teachers will contact each of their classrooms regarding their schedules for eLearning. Please plan for Lexia, ST Math, literature time, and direct instruction each day.
- - Middle School students will continue with their normal school schedule, as they have been these previous two weeks.
- - Elementary Encore teachers will be partnering with grade levels and classroom teachers to provide Encore-specific instruction each day.
- - We ask all staff to be present in the building during regular business hours, as long as they are able to do so. They will be available to students and parents through email, but please have patience as they balance their communication and instruction.
- - We will be serving breakfast and lunch each day of the week of the 30-4th. This will be a drive-through process like we did this previous spring. Please come to the staff parking lot to pick up your food. If you would like lunch, please stop by the main campus between 10:00-12:00 Monday through Friday of the week.
- While we are out this week, it is vitally important that parents continue to stay in close contact with the school. If there is any illness in your households, please partner with us and let us know what is happening. The only way we are able to keep students in their classrooms for in-person learning is if we are in this together. The more information we have, the better exclusion and closure decisions leadership can make. We want as many students here every day as possible, but cannot do it without your help. Our guidelines are becoming all the more difficult to manage.

Please know that we do not make these decisions lightly and without extensive analysis. Your students' health and safety are our number one priority. As always, please provide

us grace and patience as we walk through this together. Please have a wonderful, safe, and healthy Thanksgiving.

Sincerely,

Cullen McDowell

FREE FOOD DISTRIBUTION

In response to COVID-19, distributions will be drive-up style. Please remain in your car and follow traffic instructions from volunteers when you arrive. Guests who walk or take the bus will have a separate line to receive food.

EVERY OTHER THURSDAY:

November 5th
November 19th
December 3rd
December 17th
December 31st

**NEW TIME:
12-2PM**

**Mitchell High School
1205 Potter Dr**

Drive-up distribution! Stay in your car!

Lets do some math!

ST Math®

Time on ST Math is Time Spent Learning!

Research shows that student test scores increase with more time in ST Math. To ensure that students problem-solve all year long, and to cover the critical areas of their grade level, aim for these recommended weekly goals:

PreK/TK

10 - 30
puzzles

K - 1st Grade

25 - 65
puzzles

2nd - 8th Grade

35 - 95
puzzles

ST Math is self-paced so students can persist to mastery - while distance learning, in the classroom, or at home.

Important Information

K-5 Testing Day

We are going to hold our K-5 testing day on **December 11th**. There will be no school on that day for grades K-5.

Students will be participating in a reading assessment benchmark for our middle of the year progress.

In order to facilitate timing during this testing day, please be on the lookout for a sign-up email from your student's teacher. From the sign-up you will be able to secure a time window for testing.

We ask that parents park in the East main parking lot to wait for their student to test. Younger students may be walked up to the front door where we will have staff members present to lead your student back to their classroom. We unfortunately will not be able to have parents waiting for their student in the welcome center due to the number of parents present in the same time slot.

Please arrive promptly for your student's testing time and allow a few minutes prior so that they have enough time to make it to their classroom.

Thank you for your support and partnership!

COVID-19 Attendance

If your child has to be out of school for a COVID-19 related absence, you can contact your child's teacher for daily work. If your child is keeping up with their daily work and you are communicating with the teacher on a daily basis, the absences will not count against your child's total number of absences. This can apply if your child has to be out of school for a COVID-19 exposure or if they test positive for COVID-19 and are able to do school work.

Lost and Found

Please have your student (s) check lost and found. Since we do not have a lot of space to host these items, lost and found are donated at the end of each quarter. Parents may come at 3:45 if you want to look for student items.

Holiday Ornaments

As a classical school, sustaining an exemplary arts program is one of the cornerstones of our mission and vision. With the challenges that COVID has presented, we were not able to celebrate our students' artwork through the Original Works fundraiser. However, our student leaders in middle school are partnering with their art teacher, Jackie Cirbo, to bring you our Holiday Ornaments as our 2020 art program fundraiser. We encourage you to purchase our handmade clay ornaments on our online school store to support Rocky Mountain Classical Academy while decorating your home or giving a gift to a loved one.

<https://www.shoprmcacs.org/product-page/holiday-ornaments>

Important Information Cont'

Uniforms

Uniforms make it easier for students to focus in class and promote a safe student culture not focused on style, brands, and fashion trends. Please make sure your student's shorts and skirts are long enough to meet the uniform policy guidelines. Shorts and skirts should be no shorter than 2" above the knee when sitting. You may use this link for further information on the [RMCA Uniform Policy](#). Students may "dress up" on occasions when special events are scheduled, ie: music programs, game days for athletes, picture days, etc. Rules for modesty and dress code still apply on these days. Skirts must be of school appropriate length, no strapless or spaghetti strapped tops, no tight or low-cut clothing, no heels greater than 1", etc. Thank you for helping us by having your child follow this policy!

Masks

We will continue to follow the state recommendations for students and staff members on wearing masks and facial coverings. Students ten and younger may wear masks and facial coverings. Students eleven years and older and staff members must wear masks or a facial covering. We ask that students wear masks and facial coverings without words or images that could be scary for our younger students.

Cell Phones and Smart Watches

Students need to have their cell phones turned off and put in their backpacks before they enter the building in the morning. If students have their cell phones out of their backpacks the phone will be sent to the office. Smart watches may be worn if used as watches. If smart watches are used to take pictures, record, text, or place a phone call they will be taken to the office. Parents will be called and will need to pick the phone or smart watch up from the front office.

Water Bottles

Please send your child with a water bottle each day. The drinking fountains have been turned off and covered for student safety. We have a touchless water bottle filling station available near the gym if students need to refill their water bottle through the day. Parents have donated some water bottles for students who have forgotten to bring one.

Cold Weather

Colorado is known for its crazy weather! Be sure to watch the weather forecast and send warm coats for students on colder days. If it is too cold we will keep students in for inside recess, but want to give kids the opportunity to be outside and get their wiggles out as much as possible. The weather forecasters are predicting snow on Tuesday!

SAFE SPACES FOR KIDS TO E-LEARN

Free, full-day options available for November/December

YMCA OF THE PIKES PEAK REGION

Locations: Garden Ranch YMCA, 2380 Montebello Drive W.

Southeast YMCA, 2190 Jet Wing Drive

ART

Greetings from Ms. Parrish in the Art Studio!

I am excited to share the awesome learning and creativity happening now in each grade level! All lessons uphold our wonderful and rich Core Knowledge curriculum as well as the Colorado state standards for Visual Art. Lessons also help to support and strengthen the Literacy and when applicable, the math and science of Core Knowledge and of the Colorado state standards. This is a snapshot of how wonderfully cross curricular the Core Knowledge curriculum can be! **Grade K**, is learning about sculpture and what makes an object three dimensional. The children then create their own unique sculpture! **Grade 1**, is completing their lesson in Spatial Awareness and has also begun the fascinating study of early art / cave art! **Grade 2**, has completed their study of Spatial Awareness and has now begun learning of the beautiful and symbolic art of Ancient Greece! has completed the study of Spatial Awareness in conjunction with learning of directional line - creating 3-D shapes! Now, 3rd, will begin with the study of Ancient Rome and the incredible artistry of that time. I am delighted to share that my **4th graders** have completed their pre - Covid artworks, specifically, their wonderful ceramic Viking Longboats! My amazing 4th graders have also begun studies of the Middle Ages and are currently working on Illuminated Manuscripts, a most spectacular artform of the time period. **5th grade** as well, while when in the study of Africa, has had the opportunity to complete smashing beautiful, wax batiks, an artform of long ago Indonesia - this sensational project began pre-Covid. Additionally, 5th grade has entered into the magnificent study of the Renaissance time period! Emphasis of this study is currently placed on the incredible Gothic Cathedrals that span across all of Europe. On display, I have a superb blend of artworks that showcase the artistry, excitement and creative knowledge and understanding of the Visual Arts ~ through this are the Elements of Art and the Principles of Design. To say that I am proud of my many artists, is not nearly enough! The dedication, joy and effort put into each personal expression, truly comes through in all that they do! It is a total joy to have the opportunity to journey with your child(ren) through the never ending splendor of Visual Art

Warmly,
Ms. Parrish
RMCA Art Director / K - 5 Art Teacher.
cparrish@rmcacs.org

PE

In Physical Education students are running for the mileage club. Be on the lookout for new charms to add to students' mileage club necklace. Each charm signifies that students have accumulated running 2 miles in PE class.

Please be sure to send students to school with non-marking running shoes on their PE day. (You are welcome to send an extra pair of shoes for students to keep in their classroom.) Please also bring a water bottle; the drinking fountains are closed.

Kindergarten and 1st have been following directions with a parachute and will practice catching and throwing, then Soccer, and Basketball. 2nd thru 5th are rotating between Bowling, Volleyball, Hide out, Dodgeball (with soft foam balls), and Hockey.

I look forward to passing along a love of exercise to your students.

Coach Wil Winter
Elementary Physical Education Teacher
wwinter@rmcacs.org

LATIN

Onto another month already! They are really flying now. **Kindergarten** has been working so hard on learning our "People Words" before we start our unit about Latin colors. **First grade** has done a great job incorporating Latin colors when we've been learning about clothes. Clothing was a very important aspect of Roman culture, and the first graders have been making very smart connections between the clothes Romans wore and the ones we wear. For **second grade**, we have been having some excellent discussions about the gods and goddesses of Rome and how Romans would interact with temples and gods on a daily basis. Second grade is about to learn some of our first action words: things like "I stand," "I sit," "I run," etc. These will be very fun to practice with your students.

Third and fourth grade are each about to start a special cultural unit; **third grade** will be learning about chariot races, and **fourth grade** will be studying gladiators. These units are going to be very fun, as both gladiators and chariot-racing were large parts of Roman daily life and were very exciting. Finally, **fifth grade** will be finishing up the story of Julia and Marcus before moving onto a new textbook. Staying busy! Sincerely, Mr. Booth jbooth@rmcacs.org

Hello RMCA Families!

Your 1st – 5th grade student has been busy in library this past month updating their folders to contain their very own barcode for self-checkout! Students have been trained in the library system and can now check in and out their own books!

1st – 5th grade folders have also been updated with your student's latest STAR test results and students are now shopping with a wider range of sticker dot numbers! This has added a lot of excitement in our library! Please take a moment to ask your student about this new system.

Please continue to make sure your student's Library book is kept in a safe place, away from younger siblings and pets. Also, please be mindful of leaky water bottles in backpacks. They can ruin books and other belongings rather quickly! Ziploc bags work great!

If you need to pay a Library fine for a lost or damaged book, please use this link:

<https://www.shoprmcacs.org/product-page/library-fees>

Please remind your student to come to library prepared with their Library book(s), yellow folder, and pencil bag* every week!

*To limit the spread of illness, students are now required to bring their own supplies, including: 2 sharpened pencils, crayons or colored pencils, scissors, and a glue stick.

Books we are reading in the Library are:

Kindergarten: *Dewey There's a Cat in the Library!*
The Three Little Wolves and the Big Bad Pig, *The 3 Little Dossies*

1st Grade: *Dinosaurs Before Dark*

2nd Grade: *The Marvelous Journey of Edward Tulane*

3rd Grade: *Warriors in Winter*

4th Grade: Finishing *Peter Pan*, Starting *The Hatchet*

5th Grade: Finishing *The Hatchet*

Please feel free to contact me if you have any questions or concerns.

Kamrine Finney
kfinney@rmcacs.org

Music

It is amazing to see how far our student musicians have come since the beginning of the year! As we begin this second quarter we look forward even more exciting progress!

Kindergarten has done a wonderful job identifying musical opposites like High and Low, Loud and Soft and Fast and Slow. We will continue to apply these concepts as we practice folk songs and incorporate more classroom percussion instruments like rhythm sticks, shakers and hand drums.

1st Graders are orchestra experts as they applied their understanding of instrument families to the musical themes and characters in Prokofiev's *Peter and the Wolf*. As we get closer to the holidays we will listen, move and respond to another classic from the Core Knowledge Music Treasury, Tchaikovsky's *The Nutcracker*.

2nd Graders learned about our National Anthem and its historical context set in the War of 1812. We will take our knowledge of our patriotic music and compare it to other folk songs from different parts of the world. These songs are great for storytelling, movement and rhythmic instrument accompaniment!

3rd Graders are becoming expert music readers in the treble staff. We will continue to practice reading basic patterns on the staff both by singing and playing classroom instruments!

4th Graders are beginning to review rhythmic concepts and patterns. We will be composing and performing original rhythms alone and in groups.

5th Graders are reviewing advanced rhythmic concepts and patterns that will hopefully translate to successful strumming practice as we begin our ukulele unit after the holidays!

If you have any questions or concerns feel free to email me at drafoth@rmcacs.org.

Thank you for supporting our young musicians at RMCA!

Miss Rafoth

Nurse Notes

"If you have not yet completed your students health history form in PowerSchool, please do so. The health room needs all pertinent health information to best care for your student. Also, if you have not submitted an updated immunization record of your child's, please provide a copy for the health room. These can be brought in by your student or emailed directly to the nurse at kgriffiths@rmcacs.org. Please feel free to contact the

safe²tell Colorado

Make a Report. Make a Difference.

1-877-542-7233

Anonymously report anything that concerns or threatens you, your friends, your family or your community.
We are open 24/7, 365 to take reports.

Parents are key players in creating safer schools and communities. Safe2Tell Colorado provides the only anonymous way for students, parents and community members to report unsafe and risky behaviors before they grow out of control. Each year, Safe2Tell Colorado receives thousands of reports on bullying, cyber-bullying, suicide threats, mental health concerns, child abuse, substance abuse, violence, planned school attacks, and other concerning behaviors. Each concern reported to Safe2Tell Colorado allows for caring, concerned adults to effectively intervene in the life of a child or youth who is struggling.

Safe2Tell Colorado wants everyone to know - telling isn't "snitching." Telling is when you need to keep yourself or someone you know safe from threats, harmful behaviors or dangerous situations.

Not sure if you should use Safe2Tell? If you don't, who will? We need your help to improve your school and community. By calling, you can help stop a friend from committing suicide, get another student off drugs, or stop a bully from making other people miserable. If you have information about the following topics, please call. To make a report, call 1-877-542-7233 from anywhere, 24 hours a day, seven days a week. The call is free. You may also make a report by clicking on the yellow conversation box adjacent to this paragraph that reads Submit a Tip or download the Safe2Tell mobile app on the [Apple App Store](#) or [Google Play](#). Remember, your identity is safe. No one will ask for your name or number. There is no caller id., no call tracing, no call recording and no call forwarding. We only want to hear your concern and try to help.

The anonymity of all Safe2Tell Colorado reports is protected by C.R.S. 07-197. This means the reporting party remains UNKNOWN by Colorado State Law.
